enjoy the summer

indoor/outdoor fans

Go All Out!

Extend your summer enjoyment to the great outdoors! An outdoor rated ceiling fan will help keep your patio an oasis during the hot summer. When you serve meals al fresco, the breeze will keep pesky flies and mosquitos at bay! An added bonus: mount your fan near the door and the air flow will keep bugs from coming inside!

Remember, always use a fan rated for damp or wet locations so you can enjoy it for many seasons. You'll love how your outdoor ceiling fan will add a distinctive and functional touch to your home!

53" Lanai 79669D
