

LED LIGHT BULBS

Save Hundreds of Dollars

Cost Savings of LED vs Incandescent over 25,000 hours

	<u>LED (11 Watt)</u>	<u>INCANDESCENT (65 Watt)</u>
Bulb Cost	\$33.99	\$47.88 (\$3.99 x 12 Bulbs)
NOTE: BR30 Incandescent flood bulbs cost \$3.99 each. It takes 12 bulbs to replace one LED bulb.		
Kilowatt cost	\$41.25	\$243.75
NOTE: Based on a cost of 15 cents per Kilowatt hour over the lifetime of an LED bulb (25,000 hours).		
TOTAL COST	\$75.24	\$291.63
NOTE: That's a savings of \$216.00 per bulb! Bulb replacement in multiple locations can also save on air conditioning costs because LED bulbs generate far less heat. Savings are based on an average daily bulb burn time of 5 hours.		

TOTAL SAVINGS – Over \$216 per bulb
